Professional Summary

Engineering graduate skilled in Java, SQL, and web technologies with hands-on experience developing real-world applications during internship at Indian Oil Corporation Limited. Built projects including a Canteen Management System and AI-Powered Resume Analyzer, with strong knowledge of software development, testing, and problem-solving.

Skills

Programming & Databases: Java, SQL
Web & Technologies: HTML5, CSS3, Responsive Design, React.js
Tools & Platforms: Git, GitHub, Postman, XAMPP, Eclipse IDE
Core Concepts: OOPs, DBMS, SDLC, Computer Networks

Work Experience

Software Development Intern <i>Indian Oil Corporation Limited (IS Dept.)</i>	<i>Jun 2025 – Aug 2025</i>
- Developed a React-based Canteen Management System for 100+ employees, replacing register-based ordering with a digital workflow. - Reduced order-to-delivery time by ~50% (from ~30 mins to ~15 mins desk delivery), improving employee productivity. - Designed modular UI components and database schema to minimize manual errors and paperwork. - Tested APIs using Postman and deployed the application via XAMPP in a local environment.	
Chief Coordinator – Training & Placement Cell <i>Ujjain Engineering College</i>	<i>Aug 2023 – Present</i>
- Coordinated 40+ recruitment drives and managed engagement with 20+ companies for campus hiring. - Supported 500+ students through mock interviews, resume reviews, and preparation workshops. - Handled interview scheduling and direct HR communication to ensure smooth recruitment operations.	

Projects

Canteen Management System
- Built a web-based system to automate food ordering, billing, and meal tracking for 100+ users. - Implemented desk-delivery workflow, reducing operational turnaround time by ~50%. - Developed modular, responsive UI using React.js and tested using Postman and XAMPP.
AI-Powered Resume Analyzer
- Built an AI-based platform to match resumes with job descriptions and provide ATS score and skill-gap feedback. - Developed the complete frontend using React, TypeScript, Tailwind CSS, and React Router with reusable components. - Integrated AI APIs with file upload, preview, and basic state handling for smooth resume analysis flow.

Education

B.Tech – Electronics & Communication Engineering <i>Ujjain Engineering College, Ujjain</i>	<i>2022 – Present</i>
Current CGPA: 7.03	
Class 12 – 86% Shree Darshan Sagar Hr. Sec School, Susner	<i>2022</i>
Class 10 – 95% Shree Darshan Sagar Hr. Sec School, Susner	<i>2020</i>
